NINE NAVY OFFICERS ORDERED TO RETIRE

And Eight Others Were Retired on Their Voluntary Applications

Washington, July 3.—Five captains, one commander and three lieutenant commanders of the navy, the selections of the Sperry "plucking board," were retired under the navy personnel act, after approval by President Taft. They include Capt. Edward F. Quilley, who was commander of the battleship Georgia during the trip around the world of the Atlantic battleship fleet, and who was suspended from duty for six months, following a court martial at Tangier, on charges of intoxication and unbecoming conduct.

The other officers retired are Capt. Dennis H. Mahan, captain of the Puget sound navy yard, Bremerton, Wash.; Alexander McCrackin, commander of the cruiser West Virginia; J. B. Collins, commander of the battleship Indiana and captain of the Philadelphia navy yard; and William Shoggs, formerly commander of the supply ship Glacier; Commander Leo D. Miner, inspector of machinery at Mare Island navy yard; and Lieut. Commander Glenio Tarbox, who has been under treatment at the naval hospital, Mare Island, Cal. William W. Bush, in charge of the navy recruiting station at Oklahoma City, Okla.; and Charles T. Jewell, executive officer of the cruiser Chattanooga.

Acting Secretary of the Navy Winthrop has made public the names of eight officers on the active list of the navy who applied for voluntary retirement and whose applications have been accepted. They are: Captains

William Braumersreuther, inspector of ordnance, in charge of the naval magazine at Iowa Island, N. Y.; Frank H. Eldridge, inspector of engineering at Hartford, Conn.; I. S. K. Reeves, member of the Board of Inspection and Survey, Washington; Moses L. Wood, commander of the Maryland; Stacey Potts, under treatment at the Naval Hospital, Mare Island, Cal. The other retirements are Commanders Harry Dombagh, commander of the monitor Ozark; William C. Herbert, head of the Department of Steam Engineering at the naval station at Cavite, P. I.; and Harry George, commander of the Dixie.

As there are seventeen vacancies to be created this year to insure the flow of promotion in the navy prescribed by law, the eight voluntary retirements left the nine officers to be selected by the "plucking board" for compulsory retirement.

The captains are retired with the rank of commodore and the commanders with the rank of captains and the lieutenant commanders with the rank of commander.

These retirements create the forty vacancies above the grade of junior lieutenant requires each year by law.

NAVY ORDERS

HERALD FOUND IT

Valuable Gold Pin That Was Lost
In the City of Portsmouth

On Thursday afternoon the Herald contained an advertisement of a gold-dollar pin which had been lost.

The papers had been on the street only an hour when the finder, Mrs. Thomas J. Brooks, brought the pin into the Herald office for restoration to the owner.

That is the way that Herald ads work right along.

STILL ON THE JOB

Mark Snook, foreman at the docks of the Portsmouth Coal company, on Friday completed sixteen years of service with that firm. He feels pretty good about his record during these years.

FOUND—A Gentleman's gold watch with initials L. W. B. Owner can have same by calling at 5. Cal. street and paying for this ad.

For the past seven years he has held the position of assistant corporation counsel, and his promotion is due to the recent deposition from power of Commissioner Bingham by Mayor McClellan. Mr. Stover is 34 years old. He was graduated from Tufts College in 1896 and then took a two years' course in New York university, after which he was admitted to the King's county bar. Previous to his New York appointment in 1902 he taught in the old Kittery High School as principal for a few terms. Mr. Stover is one of the sons of the town who most emphatically

N. Y., N. H., & H. RAILROAD WAS NOT INDICTED

But Five Chinamen Were Sentenced to Death in Boston Court

Boston, July 3.—Two sensational cases came out in the superior court, this morning.

It was learned after the grand jury rose that unsuccessful attempt had been made to indict the New York, New Haven and Hartford Railroad Company for violation of the state anti-trust laws and the state laws forbidding steam railroads owning or controlling electric roads. This information came as a surprise, for it had been supposed that the road had purged itself of violations of the state laws, except in such matters as are already in action before the courts.

The five Chinamen, who were recently convicted of murder in connection with neighborhood outrages, were brought into court and sentenced to death in the electric chair.

Eliot Man's Letter from a Mexican "Prisoner"

Much Hay Was Caught Out in the Morning Rain

Eliot, Me., July 3.

Henry Downing has just been notified of a chance to make \$10,000, but he is not biting. It looks like the familiar old swindle of a rich Spanish prisoner, who has a strong box which can be made accessible to the man who puts out some money. The letter does not say anything about the customary beautiful daughter, but she appears in an enclosed alleged newspaper clipping. The request for money to help secure the fortune also does not appear in the first letter, being evidently deferred for a later communication. The prisoner is in Mexico instead of Spain. The letter, omitting signature and address, is as follows:

Mexico 23-6-09.

Dear Sir,

I know your honesty and discretion. I am imprisoned here and was a banker in Paris, as you will see from the enclosed article. I cut myself, from one of the English news papers, while in London.

I beg to beseech you herewith, whether you will aid me to draw out a sum of \$30,000 I have in U. S. but therefore it wants you come here and to take away my equipment seizure in order to seize upon a trunk containing a secret in which I have hidden the document indispensable for drawing out the foreaid sum.

As a reward I will yield you the third part \$10,000.

I cannot be more spread until I may receive your reply and then I will say you my secret, with every detail about the matter I propose you herewith.

As I cannot receive here in the goal your reply, please to send a telegram to a person reliable, who will deliver it to me in every safety.

Awaiting eagerly your reply, thereabout I entreat you to accept my best wishes and I am dear sir
Your very truly,

(Signature Omitted.)

Above all please to answer me by telegram but not by letter, as following:

(Address Omitted.)

Write letter.

Henry.

There was a large amount of hay got wet in this morning's shower. Probably more new hay was soaked in the fields than was in the barns.

Edwin Chick, an employee of the shoe shop in Portsmouth, is seriously sick. It is feared that he has typhoid fever.

Alphonso Staples went to Boston this afternoon, for a visit at the home of his cousin, Mrs. Jarvis Blume. He was accompanied by Minister Albert Staples.

Henry Nelson, with a half bushel of green pens on June 30, claims to have as forward a garden as any in this town.

Will Paul in five days has sawed, split, and piled in the cellar, five cords of rock maple stove wood.

Mrs. Fletcher Copp and the family arrived from New York on Friday and are at their summer home. Mr. Copp is expected tonight or Sunday.

Leo Ormond Tenor Soloist at Music Hall.

Another New England boy gets the place of third assistant police commissioner of New York city in the person of Josiah A. Stover of Kittery, the son of the late Capt. Josiah Stover of that town. The young man, well known in this city where he graduated from the high school, later attended Tufts college at Medford. Young Stover after leaving his native town located in New York city where he established a law business and where he affiliated with Tammany Hall. Stover was exceedingly brilliant in the matter of study and rapidly advanced in every undertaking since his boyhood.

The people of his native town are pleased to learn of his appointment and are certain he will do credit to the position.

GOING TO THE PICNIC

The Portsmouth Catholic Union have their first annual picnic at Hand's picturesque grove on Monday, July 5, and have prepared for one of the old fashioned gatherings.

They have planned for every kind of enjoyment that goes with such events and have a treat for those who attend on that date. There is a big list of sports including baseball, tug of war, etc., besides several races for the ladies.

A special platform has been constructed especially for the dancing and the children can watch the balloon go up every hour.

Hayt & Parker's orchestra will be there to make things lively and the Portsmouth Electric Railway will take you to the grove on the half hour during the day.

PORTSMOUTH MAN WANTS IT

Washington, July 3.—Five New Hampshire Republicans are vying for nomination as supervisor of the census for the Granite state. The aspirants are Scott of Dover, recent speaker of the legislature; the Rev. F. H. Duffum of Winchester; E. Percy Stoddard of Portsmouth; Harry W. Spaulding of Manchester and Frank A. Musgrove of Hanover.

LAND NOT SOLD

The story in circulation, to the effect that Valentine Coleman of Newington had sold some of his land on the river at Newington for another rendering plant, is without foundation.

THE YACHT CLUB OUTING

The members of the Portsmouth Yacht club will hold an outing at Adams Point, Great Bay, on Sunday next. The arrangements have all been completed for the event.

THE WEATHER

Saturday night and Sunday—Scattered showers followed by clear weather with lower temperature and northerly winds.

The Harvard and Yale rubber game in baseball will be played in New York this afternoon.

THE 1909 BIG FLEET

Massachusetts and Cape Cod bays for nearly two months this summer will be the rendezvous of one of the most formidable fleets of battleships, cruisers, torpedo boats and submarines ever assembled by the United States navy, and from July 6 until late in August they will engage in elaborate phases in tactical maneuvers of naval strategy.

The work laid out for the fleet will occupy every day and parts of the nights during the stay of the fleet in these waters, and includes fleet, squadron and division evolutions in tactics, day and night of attack and defense against torpedo boats and submarine attack, anchoring and getting underway in all classes of formation. The ships will coal by divisions, and there will be work in tactical evolutions in small boats under sail and oars and landing parties.

FREE TO YOU—MY SISTER

Free to You and Every Sister Suffering from Women's Ailments.

I am a woman. I know woman's sufferings. I have found the cure. I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or White Discharge, Ulceration, Displacement or Falling of the Womb, Protrusion, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, all pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling in the soles, melancholy, desire to cry, but flashes weariness, kidney and bladder troubles when caused by weakness peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give this treatment a complete trial, and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, in book—WOMAN'S OWN MEDICAL ADVISER—with explanatory illustrations showing what women suffer, and how they can easily cure themselves at home. Every woman should have it, so she can think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all old or young. Do Mothers of Daughters. I will explain a simple home treatment which speeds and effectually cures Leucorrhoea, Green Discharges and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always result from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly testify to the fact that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your name and address, and the free ten day's treatment is yours. Write today. As you may not see this offer again. Address

Cavalieri Writes About Her Hair

Mme. Lina Cavalieri, the Grand Opera soprano, whom some people call the most famous beauty in the world, had a long article in the New York Sunday American, January 17, 1909, in which she says: "With a lifeless condition of the hair I have always found two corresponding conditions of the scalp. The scalp is hot and dry. Also, the brushing reveals dandruff—light, fine and profuse. It is a condition that must be corrected. First to remove the dandruff, for the dandruff must be removed. Hair cannot thrive when that fine, light powder lies upon the scalp, obstructing its pores. To rid one's self of it, the hair must be washed, not once, but often. I resolve upon washing it every day for a week." Here Cavalieri shows she has learned what most women never learn. She washes her hair and scalp often, while women generally do not do so more than once a month. There is just one way to have beautiful hair, and that is to have a healthy scalp, and there is just one way to have a healthy scalp, and that is to keep it clean, soft and supple. Common soaps and shampoos won't do, because they contain too much alkali, and make the hair harsh and dry, and the scalp hot and scaly. Tonics and renewers and invigorators won't do either, because they do not cleanse. Birt's Head Wash is the best thing in the world for cleansing the hair and scalp. It is best because it is made of Refined Soap, White of Eggs, Cochin Cocoon Oil, Glycerin and Salicylic Acid. That combination of ingredients makes an ideal hair and scalp cleanser, and any doctor you ask will tell you so. Birt's Head Wash makes the hair glossy, vigorous and beautiful. It makes the scalp clean and opens up the millions of pores that lead down to the hair roots, so that the hair can thrive and grow in a natural way. Birt's Head Wash is so good that you cannot afford to take a chance by putting anything else on your scalp.

The Naval Reserves

On July 7 the fleet will assemble at Rockport and proceed to Provincetown. It will be during the stay of the ships off Provincetown that the naval reserves of Maine, Massachusetts, Rhode Island, Connecticut, New Jersey and the District of Columbia will perform their tour of duty which has been arranged under the direction of Commander Charles C. Marsh, U. S. N., chief of the bureau of naval militia, U. S. N.

From July 26 to July 31 inclusive, these officers and men who compose the secondary line of defense to the regular establishment will work with the regular army officers and men.

Today the naval reserves are a strong and growing organization, comprising over 6000 officers and men, and distributed along the two coast lines and great lakes.

The only instruction the reserves, who participate in the Atlantic coast maneuvers, will miss will be target practice, but there will be ample instructions in other duties.

The customary target practice of the fleet off Cape Cod will be postponed until late in August, and will be held on the southern drill grounds under battle conditions of fire control.

HAMPTON

Mrs. Mary Newhall Easton, of Lynn, Mass., was brought to Hampton for burial on Monday. The deceased was the grandmother of Mrs. H. B. Marton, and was aged 84 years.

Rev. C. W. Buzzell, superintendent of the Good Will Institute, occupied the Congregational church on Sunday. His work is in behalf of destitute and dependent children throughout the state.

The Seaside District Sunday school convention held its summer meeting at the Congregational chapel Tuesday. A splendid programme was carried out as arranged, the only regret being that there were not larger audiences. The state superintendent, Rev. Roger Thompson, was present.

The Monday club held a sewing bee at Bennett's Casino, North Beach, on Wednesday, when supplies for the Hampton room in the Cottage hospital, Exeter, were made.

Mrs. Charlotte Nye is entertaining her sisters, Mrs. Carter and Mrs. Kennedy, and niece, Miss Gladys Kennedy, of New York.

Mrs. Mack is visiting her brother and family at Hollis Center, Me., for a week past.

A special missionary committee appointed for the purpose of raising the appropriation of \$100 by the Congregational church in town for the liquidation of the debt of the combined three missionary boards of their denomination, were successful in doing it in less than two days.

Ernest Perkins and family are guests in town for the summer.

Miss Julia G. Locke this week graduated from Wellesley, where she had been prominent in many phases of college life. She was a member of Alpha Kappa Chi fraternity. Since Saturday her mother, Mrs. Martha Locke, and daughters have been in attendance at the commencement exercises.

Dexter Fay arrived in town Wednesday, a summer guest at Greta hall.

Mrs. Horace Hobbs was called to New Haven, Conn., to be present at a surgical operation on Mr. Walter E. Goodwin, son in law of Mrs. Hobbs. Mr. Goodwin was taken to the hospital in New Haven last Sunday and Monday morning the operation for appendicitis was performed. Mr. Goodwin is doing as well as could be expected, as the case has been of long standing.

The brewers were worked overtime this week trying to keep up with the great rush of business.

RAILROAD NOTES

The hours at the ticket office have been stretched out since the summer schedule went into effect, and, outside of one hour of the day, the office is open from 5:30 a. m. to 10:15 p. m.

The regular train carrying the navy yard workmen has been omitted for Monday.

Some changes are being planned in the tracks at the button shop.

Today was a big day at the depot, and everybody on duty there had plenty to do. Trains No. 11, 21 and 41 were so heavy that they were run in sections. Tonight the Bar Harbor train, No. 127, will also run in two parts.

Several trains on short runs have been cancelled for Monday.

INDEPENDENCE DAY'S DOINGS

They Will Be Along Lines of Previous Years

THE BAN ON FIREWORKS

It Will Prevent Pyrotechnic Displays in Cleveland and a Few Other Places—Outdoor Sports a Popular Feature of the Day—National Celebrations to Take Part in Lake Champlain's Observance of Tercentenary

Throughout the length and breadth of Uncle Sam's possessions, which means nowadays a land on which the sun never sets, his sons and daughters will celebrate Monday the one hundred and thirty-third anniversary of the filing of the application for a divorce in the case of Mrs. Columbia against John Bull.

On Monday night the man on Mars, looking down on the broad stretch of earth and scattered spots over which the American flag waves, will see repeated the annual spectacle of a land in violent pyrotechnic eruption. He will, however, see nothing of the sort rising from the site of Cleveland, O., where the city fathers have decreed that Cleveland shall add zero this year to the total of more than 500 dead and many more hundreds wounded that represents the annual American sacrifice to exuberant patriotism. Fireworks are under the ban in Cleveland and in a few other places, but on the whole the celebration of the Fourth of July on July 5, the calendar Fourth coming tomorrow, will differ very little from that of the past years. In every city, town and village, save in the cases of the exceptions mentioned, there will be fireworks, parades, speeches and, above all, athletic sports of various sorts.

More and more as the years go on Independence day shares with Memorial day and Labor day, the two other summer holidays, in the great outpouring of the American people for outdoor recreation. They do not forget their patriotic duties by any means, but hurry through them in order to participate in or view contests on land and water.

The center of the patriotic Fourth of July celebration comes this year at Lake Champlain, N. Y.; beginning Monday, President Taft, Vice President Sherman and other national celebrities will take part in the commemoration of the three hundredth anniversary of the discovery of the lake and the recalling of the historic events that have taken place along its shores, although the president will not arrive until Tuesday. Probably the greatest of the big cities' celebrations of independence day will come in Pittsburgh; where an old fashioned Fourth of July will be spent in speeches, fireworks, balloon ascensions, etc. In Washington Secretary Nagel of the department of commerce and labor will be the principal speaker. Secretary of War Dickinson was to have read the Declaration of Independence, but had to cancel the engagement. Elmira, N. Y., has planned a celebration somewhat larger than the size of the city would seem to indicate. The Elmira, wishing to be "neighborly," asked the Canadian authorities in Kingston, Ont., to let the "Princess of Wales' Own Rifles" take part in the parade, but the Dominion officials decided that asking Canadian soldiers, clad in his majesty's uniform, to march in a Fourth of July parade was a little too much. At Toledo, O., a big military tournament will begin Monday. In Philadelphia and Boston there will be great regattas, bringing together the best oarsmen of the eastern states, and water sports will claim the attention of crowds in other sections of the United States. For the fans there will be baseball games by all the teams in all the leagues, big and little.

On the day of days for Americans the temporarily ex-patriated Yankees will meet in many cities and dwell on their country's glories. In London, Paris, Berlin and other places there will be banquets and speeches.

REMEMBER NEW HOME

Danish Americans in Old Country Will Fittingly Observe the Fourth Arrhus, Denmark, July 3.—In this ancient Jutland city, situated on the eastern coast of the Danish peninsula, the Fourth of July will be celebrated tomorrow with a fervor and enthusiasm equal to those displayed in any city of the United States. The reason therefor is the gathering here of a large body of Danish Americans, come to visit the land of their forefathers. They have not forgotten their new home in their affection for the old and will show the residents of Arrhus what a real old fashioned celebration of the Fourth of July means.

Most of the Danish Americans here are from the middle west. At the head of the committee having charge of the Independence day celebration is Dr. Henius of Chicago. Last month Dr. Henius was received in audience by King Frederick at Copenhagen. His majesty showed great interest in the celebration and promised the attendance of Crown Prince Christian.

EDUCATOR'S CONVENTION

Association Now Has Membership of Six Thousand Teachers

Denver, July 3.—With the gathering in this city today of thousands of teachers and others interested in educational work, the annual convention of the National Education association assumed shape, although the general sessions will not open until Monday evening.

The present active membership of the association consists of 6000 of the leading teachers of the country. All teachers and others actively associated with educational institutions, including libraries and periodicals, may become members of the association. Persons not engaged in educational work, as well as those eligible to become active members, but who do not wish to, may enroll as associate members. The association was established in 1857 as the National Teachers' association and assumed its present name in 1870.

Following the custom of several years, the Religious Education association will hold a conference in connection with the convention of the National Education association. This conference, having for its topic "The Relations Between Public Education and Religious Training," will meet next Monday.

WAS NOT LEON'S BODY

Corpse Found in Hudson River Was That of a White Youth

New York, July 3.—Paul Sigel, the father of Elsie Sigel, who was murdered by a Chinaman on June 9, visited the Fordham morgue and pronounced positively that the body recovered from the Hudson river is not that of Leon Ling, the man accused of the murder.

A coroner's physician declared that the body was that of a white boy, apparently about 16 years old. The water had so discolored the body as to give it the appearance of a Mongolian.

The Sigel mystery thus again resolves itself into further search for Leon Ling. The police have no further progress to report.

STATUE OF G. A. R.'S FOUNDER UNVEILED

President Joins in Paying Honor to Stephenson

Washington, July 3.—With military and civic honors, as befitting the recalling to memory of a man who was trained in the peaceful profession of medicine and served his country in the ranks of warriors, the statue of Major Benjamin Franklin Stephenson, "father of the Grand Army of the Republic," was unveiled here today.

Participating in the ceremony of dedication were President Taft and other prominent men. The president delivered an address, but the orator of the day was Representative J. Hampton Moore of Pennsylvania. The unveiling was preceded by a parade of United States soldiers, sailors and marines and the national guard of the District of Columbia.

The monument unveiled today is the first one erected to the memory of Major Stephenson, who was born in Illinois in 1822 and died in 1871. It is intended also to commemorate in granite and bronze his idea, conceived while he was serving as a surgeon in the Union army, of uniting the veterans of the federal army into a great fraternal organization.

The shaft is of granite about forty feet high and triangular in shape. On each of its three sides are groups in bronze representing the three cardinal principles of the Grand Army of the Republic—fraternity, charity and loyalty. On the western side is a bronze idealized medallion of Dr. Stephenson in the uniform of an officer of the Civil war.

The shaft has been erected at a cost of \$40,000, the Grand Army of the Republic contributing \$30,000 and the national government \$10,000.

Old Concern Embarrassed Providence, July 3.—Henry R. Segar was appointed temporary receiver for the Nichols & Langworthy Machine company by Justice Tannar. The firm has been doing business at Hope Valley, but the plant was destroyed by fire on April 13, with a loss of \$200,000. It is one of the oldest machine companies in New England.

Boston Third in Postal Rating Boston, July 3.—Receipts in the Boston postal district for the fiscal year ending June 30 were \$5,743,218.55, a little more than 7 percent increase over 1908. The showing places Boston in third position among the cities in the country, New York being first and Chicago second.

Central Trust's Liabilities Providence, July 3.—Liabilities of Providence, July 4.—Liabilities of \$31,082.19 and assets of \$69,523.81 were reported by the receiver for the Central Trust company to the superior court. The bank was closed on Nov. 4.

Cubans Legalize Cockfighting Havana, July 3.—The house of representatives passed the bill legalizing cockfighting and the measure was immediately signed by President Gomez.

CORNELL MAKES A CLEAN SWEEP

Gets Everything In Intercollegiate Rowing Contest

NEW RECORDS ARE MADE

Men From Ithaca Have an Easy Thing of It In Varsity Four-Oared and Freshman Eight-Oared, but Meet a Stubborn and Unexpected Contestant in Columbians—Wind and Tide Favored First Races

Poughkeepsie, N. Y., July 3.—Varsity eight-oared shells, four miles: Cornell, 19:02; Columbia, 19:04 3-5; Syracuse, 19:15 1-5; Wisconsin, 18:24 1-5; Pennsylvania, 19:32 1-5. Varsity four-oared shells, two miles: Cornell, 10:01; Syracuse, 10:10; Columbia, 10:12; Pennsylvania, 10:27.

Freshman eight-oared shells, two miles: Cornell, 9:07 3-5; Syracuse, 9:14 4-5; Pennsylvania, 9:21; Wisconsin, 9:22 4-5; Columbia, 9:26. Cornell's stalwart crews made a clean sweep of the fifteenth annual regatta of the Intercollegiate Rowing association, just as those of Harvard triumphed over Yale in all events at New London. But Cornell did more than defeat the crews of four other universities represented in the races; she established two records for the two-mile course, one in the varsity four-oared, and another in the freshman eight-oared race. Altogether, it was a great day for Cornell.

It was conceded that Cornell would take the four-oared and probably the freshman eight; but there was some doubt about the varsity eight, the big race of the day. As had been predicted, this proved to be the hardest contest, the other two being won in rather an easy fashion. In the varsity eight, however, Cornell met a stubborn and unexpected contestant in Columbia, and it took the stamina and great rowing strength of her crew to pull the bow of their shell across the finish line a scant length in the lead.

But once during the race did Cornell increase her steady 34 stroke, and that was just before the finish line was reached, when she ran it up to 35 and opened up a few feet of space between her and the Columbia shell's bow. Syracuse finished three lengths behind Cornell, with Wisconsin three lengths to the rear. Pennsylvania was last, two lengths behind Wisconsin.

In the four-oared race Cornell won easily, three lengths ahead of Syracuse, and in the freshman eight by a length, also from Syracuse. The official time in this particular race would indicate that Cornell's lead over Syracuse at the finish was more than a length and in the opinion of scores of observers an error was made, but there was no change in the time as originally given out by the officials. The unofficial time in the freshman race was 9:14.

Thus Cornell lowered two records for the course, the "four-oared" by 14 2-5 seconds and the "freshman eight" by 10 2-5 seconds. A strong wind and a favorable tide is partly responsible for the fast time made in the first two races. Before the varsity race was called the wind had died away to a light breeze and the tide had turned.

Syracuse made the best showing next to Cornell, taking second place in both the four-oared varsity and the freshman eight and third place in the varsity eight. Wisconsin, the only western university represented, had crews in but two races and finished in fourth place in both, while Pennsylvania's showing was the least creditable. Her crews finished last in both the varsity eight and varsity four and took third place in the freshman eight.

Columbia proved surprisingly strong in the big race, but could finish no better than fourth in the varsity fours and last in the freshman race.

Not a mishap of any sort marred the day's sport and the races were started with commendable promptness. The weather, too, was perfect, and there but one thing that did not come up to expectations. The crowds did not come, and the number of smart river craft was far less than in former years. Poughkeepsie is disposed to blame Thursday's big race at New London for the small attendance. The Harvard-Yale race drew all the large yachts to the Thames and they had not time to reach the Hudson.

The Sylph Reaches Beverly Beverly, Mass., July 3.—Anchored not far from her cottage to be occupied during the summer by President Taft and his family is the steam yacht Sylph, the president's private yacht. Lieutenant Williams is in command.

New Headquarters For Suffragists Seattle, July 3.—The American Woman Suffrage association decided to establish national headquarters in New York city after a long discussion over removal from Washington.

Woman Killed by Taxicab Boston, July 3.—Mrs. Katherine Mayn, 68 years old, was killed by being run over by a taxicab. The chauffeur was not taken into custody, being held blameless.

Two Thousand PERSONS HOMELESS

Fire Sweeps Large Section of Canadian Mining Town

Cobalt, Ont., July 3.—Fire swept a half mile of Cobalt's streets, causing a loss of about \$400,000, one death and the injury of six persons. It is estimated that 2000 persons are homeless.

Starting in the kitchen of a Chinese restaurant, the flames spread quickly and were soon beyond control. Business structures and many residences on both sides of the street for a distance of half a mile were swept clean.

The local fire brigade and an army of willing volunteers had a strong wind from the northwest against them and the use of dynamite was necessary to check the flames.

Nine Naval Officers Retired Washington, July 3.—Five captains, one commander and three lieutenant commanders of the navy, the selections of the Sperry "plucking board," were retired yesterday under the navy personnel act. They include Captain Quibbrough, who was suspended from duty for six months, following a court martial at Tanager on charges of intoxication and unbecoming conduct.

Czar's Visit Opposed Paris, July 3.—M. Jaures, a Socialist leader, in a violent speech in the chamber of deputies, voiced the opposition of the Socialists to the approaching visit of Emperor Nicholas to France.

CARLTON CLARK AGAIN STOLEN

Foster Mother Has Child Abducted In Boston

IS BOY'S LEGAL GUARDIAN

Mother Had Kidnapped Her Son In New York Eleven Months Ago and Placed Him In Care of Her Parents, From Whom He Was Taken by Deceitful—Parents of the Youngster Divorced Four Years Ago

Boston, July 3.—To the already tangled skein of events which has marked the possession of 7-year-old Carlton Clark, there was added still another tangle when the boy's foster mother, Mrs. Sophie Creamer, wife of the chairman of the New York board of health, took him to New York, following his kidnapping by private detectives from the home of Mr. and Mrs. Robert Buchanan in the Dorchester district, parents of the child's mother, Mrs. Maud Clark.

Mrs. Clark had enjoyed possession of her son for eleven months since herself kidnapping him from the Creamers' home in New York. Her possession was not undisputed during that time, however, she being indicted by the grand jury in New York on the charge of kidnapping and released later when no verdict was returned against her. It is said that Mrs. Creamer has been in Boston since Monday and that she hired detectives to secure the boy for her.

The history of the case is an interesting one. Some four years ago Forrest Clark was divorced from his wife in this city and awarded the custody of their only child, Carlton, then aged 3 years. The father had the boy adopted by Dr. and Mrs. Creamer, and at their home the child remained up to slightly less than a year ago.

At that time Mrs. Clark went to New York and brought the child back with her to the home of her parents in Dorchester. For this surreptitious means of securing her child she was indicted and subsequently allowed to return to her home.

Yesterday's transfer of youthful Carlton marks the latest twist in the tangle. At the time of Clark's divorce Mrs. Creamer was appointed by the courts as legal guardian of the child.

MURDER STIRS ENGLAND

Public Men Are to Be Guarded by Police in the Future

London, July 3.—The murder of Lieutenant Colonel Wylie and Dr. Lalena by Minder Lelof Dihnaght, an Indian student, has stirred England in a manner unknown since the Phoenix Park murders.

Great sympathy is felt for Viscount Moreley, secretary of state for India, the difficulties of whose position will be greatly increased by reason of the murders.

A strong feeling has been aroused against a number of the members of the house of commons and others, who encouraged the Indian agitation against the government.

Another consequence of the tragedy has been to stir up the feeling of the Indian students in England. It is henceforth it will be necessary to afford police protection to public men.

NERO STILL ON ROCKS

Wrecking Company Will Try Compelled Air on the Naval Collier

Newport, R. I., July 3.—Compelled air will be resorted to as the hoped-for salvation of the naval collier Nero, stranded on the rocks of the west side of the outer passage of Narragansett bay. The Arcticle Wrecking company has been awarded the contract to float the Nero.

The Nero ran aground during a fog Thursday. Three attempts have been made since to pull her off by attaching hawsers, but she could not be budged.

Not Satisfactory to United States Washington, July 3.—That this government is not entirely satisfied with the agreement reached between Russia and China regarding the administration settlements along the line of the Chinese Eastern railway in Manchuria and involving the government of Harbin is officially admitted.

Steamer Sinks Schooner Detroit, July 3.—Schooner John Schmitt was sunk in the lower Detroit river in collision with steamer Alfred Mitchell. The schooner's crew escaped in their own yawl boat.

TELEGRAPHIC BRIEVITIES

Friction in a power belt box started a fire in the silk embroidery plant of J. B. Stark & Co., Haverhill, Mass., which resulted in damage of about \$55,000.

The smallest output of the American shipbuilding industry since 1898 is the record shown in the figures gathered during the financial year just ended.

Mrs. Xenia Culbertson, a woman of wealth and high social position in Russia, died in the apartments of her sons at New Haven. One of her sons is a student in Yale and the other intends to enter Yale in the fall.

AEROPLANE IS DISABLED

Wright Machine Will Be Out of Commission For a Few Days

Washington, July 3.—The new Wright aeroplane was on its way around the Fort Myer drill grounds for the ninth time in its second flight last evening when the motor stopped. In gliding downward the machine struck a tree and was swayed around with such force that the skids were broken and the right wing badly crippled. Orville Wright, who was at the wheel, was not hurt.

On the first attempt Orville Wright flew about the field twelve times in a little less than twelve minutes. He had been in the air for a little more than eight minutes on the second trial when the accident happened. Orville and Wilbur inspected the machine closely to see what caused the motor to stop. They did not announce the result of their investigations, but said that the aeroplane would not be ready for another flight before Tuesday at the earliest.

ELEVEN NEGATIVE VOTES

Taft's Corporation Amendment Is Made Part of New Tariff Bill

Washington, July 3.—The corporation amendment, which was suggested by President Taft, drawn by Attorney General Wickersham and presented to the senate by Senator Aldrich, chairman of the committee on finance, is an integral part of the tariff bill as that bill now stands.

After much tribulation the senate reached a vote on the proposition last evening and the amendment was agreed to by the large vote of 69 to 11. With all modifying amendments disposed of, many Democrats voted with most of the Republicans for the amendment. Only three Democrats voted against the provision on the final vote, but some refrained from voting at all.

BINGHAM TO GIRD

POLITICAL ARMOR

Promises to Take Part in Gotham's Political Campaign

New York, July 3.—New York's new police administration, with Commissioner Baker at the helm, has started off quietly. There have been no more sensational removals.

The political pot boils fervently. General Bingham, the ousted commissioner, on the eve of his departure for his summer quarters in Nova Scotia, said that he would return to New York in the autumn and take an active part in the campaign preceding the municipal election. It is not unlikely that his removal will be made one of the principal issues of the anti-Tammany forces in the campaign.

UNDER TONS OF EARTH

Twenty Men Working in Trench Are Killed by Great Landslide

Newport, Eng., July 3.—Twenty men perished by the collapse of the west wall of the new lock at the entrance to the Alexandra dock. Fifty men were working in a trench sixty feet deep, preparing for the laying of a concrete foundation.

Without the slightest warning the heavy shoring timbers gave way and the entire structure collapsed and carried down with it thousands of tons of earth, the railway lines on both sides of the trench, many railway cars and four traveling cranes.

The men in the bottom of the trench had no chance to escape, but many of those working nearer the surface were uninjured.

KING UNDER THE KNIFE

Polypus Which Caused Alfonso's Deafness Is Successfully Removed

Madrid, July 3.—Dr. Moore operated yesterday upon King Alfonso of Spain for the removal of a polypus. The king came to Madrid to consult with the specialist concerning a deafness which he believed to be due to a polypus which was removed without difficulty.

An examination, however, showed that the trouble was due principally to a polypus, which was removed without difficulty.

Miraculous Escape From Death St. Gall, Switzerland, July 3.—A young woman who was caught in a cave-in of a railroad tunnel was yesterday dug out alive after ten days. She suffered agonies of cold and hunger during this period, but managed to sustain life by sucking moisture from her clothing on which water occasionally trickled.

Where Automobiles Are Banned Charlottesville, Va., July 3.—Automobiles cannot legally be operated throughout this entire island province. Chief Justice Sullivan of the supreme court having upheld the ruling of a local magistrate in a test case in which the running of automobiles was declared to be contrary to the law.

SATURDAY, JULY 3, 1909

MAINE'S NEW LAWS

Saturday, July 3, 1909—this is the date for the laws to go into effect in Maine, which were passed by the last legislature. It is ninety days from the adjournment of the legislature, and marks the expiration of the time limit for the filing of referendum petitions.

The cash may now be paid for the state orchard experiment farm without conflicting with the constitution, and the deed of that property be signed, sealed and delivered to the state of Maine.

Hereafter the expense of the Sturges prohibitory law enforcement deputies must be paid by the county in which those officers may be operating.

Other acts authorize the probation system encourage the propagation of shellfish, require the licensing of lunch wagons, change the title of the bank examiner to bank commissioner, provide for better collection of statistics of marriage, provide for the better protection of trees and shrubs, require milk dealers to register with the commissioner of agriculture, enlarge the duties of the latter of deer, regulate the use of the cinematographs in places of public assembly, provide for the better sanitary protection of school children, punish the selling of impure milk by a stiff fine, regulate the measuring of milk, exempt public bonds from taxation, provide for the retirement of judges at 70 on half pay and for the retirement of state prison officials at 60 on the same terms and with certain other conditions, direct that motor boats be provided with mufflers, allow the appointment of school physicians, raise the standard of free high schools, modify and improve the law for state aid to state roads, make punishable by fine the spitting on sidewalks or floors of places of public assemblage, provide for the better protection of people against tuberculosis, increase the safeguards of schools against fire, encourage manual training and the teaching of domestic science, create the office of deputy superintendent of schools, provide for a new normal school at Machias, enlarge the powers of the board of prison and jail inspectors, strengthen the provisions for protection against forest fires, amend the statute in relation to savings bank investments, provide for the uniform packing of apples, provide for the appointment of the board of state assessors by the governor and council instead of election by the legislature, make an entirely new draft of the militia law.

And there are other new statutes which went into effect with the striking of the clock at midnight on Friday night, lots of them, but one should take a week off and read up if he desires to become thoroughly posted on such a complex and confusing subject. There have been only three legislatures since the last revision of the Maine statutes was made, but already the amendments are bigger than the book of the Revised Statutes.

Not all of the laws passed by the Maine legislature take effect at this time. Those which do not now become effective are the measures which have been held up under referendum petitions and the laws which were tagged as being emergency measures and received a two-thirds vote of all the members of both house and senate. The statute to go to a referendum must be decided by popular vote at the ballot box. The emergency laws went into effect as soon as they had been approved by the governor.

The governor will now proceed to name the members of the three commissions authorized by the last legislature. These will comprise a state board of registration in optometry, numbering five members; a water storage commission of three members; and a board of arbitration and conciliation for labor disputes.

It looks a good deal different, but really there isn't any startling variance between Maine and New Hampshire methods after all.

NEWINGTON

Mrs. Josephine Hoyt was a visitor in Dover on Wednesday.

Miss Eunice Ransom is passing a part of her summer vacation with her sister, Mrs. Laura Frink.

Mrs. Jack Hill and family of Providence, R. I., are spending the summer with Miss Mary S. Pickering, at Bay-side.

The dry weather has affected the grass and vegetation in general. The berry crop has suffered for the want of rain. Although those having very large beds have harvested many boxes of the fruit, but still not nearly so many as was expected.

The Reapers' Circle met with Mrs. Darius Frink on Wednesday afternoon.

Mr. and Mrs. George H. Marston were called here because of the illness of their aunt, Miss Hattie A. Pickering.

The Newington baseball club plays the Greenland boys on Monday afternoon, July 4. A good game is anticipated by the lads.

Miss Luscomb, teacher of our grammar school, has resigned her position after teaching the school for two years. She is a capable and efficient teacher.

Five pupils from the eighth grade have been given certificates to enter the Portsmouth High school, at the commencement of the next school year. Margaret Pickering, Mabelle de Rochmont, Grace T. Pickering, Sidney Frink, and Phineas Coleman.

Miss Della Cole of Cambridge, Mass. is the guest of Mr. Luther Pickering and family.

Mr. and Mrs. John Rowe and infant son are the guests of the Misses Abbie and Mary Frink over the Fourth.

Miss Ruth Harden is visiting her uncle in Lynn, Mass.

Lura and Harold Staples are passing part of their vacation with their brother, Lawrence M. Staples.

The twenty special police will go on duty this evening and they will work Saturday and Sunday nights. This will be in addition to the regular force so that it is evident that the police intend to see that the rules laid down by the Commissioners are strictly enforced. It will be a pleasure to have the business streets free from the insane noise that has been so common.

WOMAN, LOVELY WOMAN

But Alas, Without Beautiful Hair No Woman Can be Handsome

A great many newspapers and magazines are printing pages on how a woman can be beautiful and keep beautiful.

And everyone, as you can see for yourself admits that no woman can be really beautiful unless she has lustrous and luxuriant hair.

The women of Paris are, as a rule, beautiful and keep beautiful, and a careful American observer who has travelled much claims that their beauty is due to their knowledge of how to keep their hair luxuriant, which they do by using a superior hair tonic.

Many American women are as wise as their French sisters, and that is why Parisian Sage, the quick acting and greatest of all hair restorers and tonics, is now having such a tremendous sale in America.

We ask every woman reader of this paper to give this marvelous hair beautifier a thorough trial, and we gladly make them this liberal offer:

Get a large 50 cent bottle from Goodwin E. Philbrick today, the largest for the money in America. Use it as directed for two weeks. If at the end of that time you are not satisfied with results, say so to Goodwin E. Philbrick and he will give you your money back.

Besides being a delightful and invigorating hair dressing, free from grease and stickiness, Parisian Sage will surely cure dandruff, stop falling hair and itching of the scalp, or journey back.

The girl with the Auburn hair is in every package, and leading druggists in every town sell Parisian Sage.

A TIMELY TOPIC

Patriotism

The first element of patriotism is provincialism. Unless we have that first we cannot get the true conception of the nation life. My first appeal to you, therefore, young men, is to nurture in your memories a love for the scenery, the conditions and the streets in which you live. Wherever you are, remember with gratitude your old home and at the same time take up the new with the consciousness that if your life is to be spent in that country, there you will make yourself happy; there you will build the scenery of the country into your life; there you will bring up your children proud of the atmosphere in which they were born.

The second essential of patriotism is one taught from our Lord's life in parable and action—a consciousness of stewardship, a sense of responsibility. What is it makes this nation? Not the casting of the votes first, not the caucus, not those in public service—it is the great body of the people, the men, women and children, each one of them doing their duty in that state of life to which it has pleased God to call them.

The third element of patriotism is public service. No man in this country is doing his work as a citizen who does not give a certain amount of time in public service.

There is among us a class of men who would never think of doing a dishonest thing by their neighbor, who would not be seen doing an underhand bit of work in dealing with an individual, but who have no hesitation in stealing from 10,000 people. There is a singular phase of morality which makes it possible for men or women to do a sharp or dishonest thing in dealing with a corporation, a railroad or a hotel or, in public life, with a city or village, and yet feel that they can safely do that because the loss is widely distributed.

There is a call today for every man and woman to do something special in public service and there has probably never been another time when so many people of the best brains and ability have been doing so much work for the public.

The fourth condition of patriotism is that, recognizing the rights of our own nation and loving her, we shall recognize the rights of other nations. Here we come to one of the great movements of the age, a movement in which our own country is taking the lead. The old slogan "My country, right or wrong," is barbarism. That is the way the savage speaks.

The fifth essential of patriotism is character. To possess a patriotic character one must be pure, honest, chivalrous and Christ-like.

ANNUAL MEETING OF DISTRICT NURSING ASSOCIATION

Officers Elected and Report Made. Association Doing Excellent Work.

The annual meeting of the Portsmouth District Nursing Association was held at the city rooms Friday afternoon at four o'clock. The reports were read and approved. The nominating committee brought in as candidates at large for the next year the following names:

For board of managers: Mrs. A. O. Benfield, Miss Bruecklin, Miss Frances A. Mathes, Mrs. L. H. Thayer, Miss Susan J. Wentworth, Mrs. Putnam. The secretary cast a ballot by instruction of the meeting, and they were declared elected by the nominating committee for the next year.

Report of the Secretary of the board of managers of the Portsmouth District Nursing Association for the year ending July 1, 1909.

The board of managers has held twelve meetings during the year with a smaller attendance than usual, the average being only seven. On but one occasion, however, in August, did the meeting lack the quorum of five. At the July meeting Mrs. Benfield was chosen for President, Mrs. Hall, Treasurer, Miss Mathes, Secretary. As Mrs. Benfield declined to serve, Mrs. Wood was persuaded to resume the place of president, which she has most ably filled since the association was formed. Mrs. Benfield has this year served as treasurer during a long absence of Mrs. Hall, and Miss Wentworth took the place of the secretary during the three months she was out of town.

The managers then chose a new advisory board, Mrs. Hoffinger, Eastman and Hannaford being chosen to act with Miss Truesdale, the superintendent of the Cottage hospital.

On September seventeenth the association received its papers of incorporation; this makes it possible for us to receive and hold and expend for the use of the association all gifts, bequests and legacies that the

friends of our work may choose to bestow on us.

We are glad to report the continued interest of all the organizations that have previously aided the finances, and have much gratification at the interest recently manifested by the Knights of Columbus, who have most generously given the proceeds of the concert and ball held on the evening of June third. We are especially glad to enroll this group of citizens among our active supporters. Our attention has been called to a feature of the work in Washington, D. C., where memorial gifts often take the form of supplies for use in the work of the nurse, according to the needs of the case in hand. As something concrete often appeals to generous givers, we add the suggestion to our usual appeal for gifts. Money, clothing new and second-hand, household articles, food for the sick, and anything that will add to the efficiency of our active agent, Miss Sutherland. Old cotton and linen are of great assistance and much desired.

We are constantly reiterating that the first duty is to the poor, but we are glad that the nurse finds time to help many others of us over hard places that seem to occur in the lives of all, however favored by circumstances of life or fortune.

The board has been interested to learn that the calls from the foreigners among us are surprisingly few, but there is one chronic case where Miss Sutherland's ministrations are of greatest value and are also appreciated.

The nurse was unfortunate enough to be a victim of diphtheria in January, and was laid aside from her duties for several weeks. She has happily recovered and is busy about her work; we have insisted on some relief for her occasional over-busy days as well

as on her protecting herself more carefully in the rough weather by using a carriage; we are hoping that her vacation may be of such restful nature as to add to her still too small measure of strength.

We wish here to extend a special note of thanks to Mr. Burpee Wood, one of our interested supporters, who has been most kind to Miss Sutherland by helping her gather up gifts of clothing by giving some of her patients opportunities for outings and by readiness to do all he can to ease her hard places.

Miss Florence Hill acted as substitute nurse during Miss Sutherland's vacation in July; Mrs. Warren, Miss Frances Kelley and Mrs. Richardson during her illness in January.

A pamphlet report of the organization and work of the District Nursing Association was published in October, 1908, copies of which may be obtained from Mrs. Mary I. Wood, 4 Congress block, or from Miss Frances A. Mathes, South street. They were, last November, sent to all the members of the association and distributed among interested people. We still have enough to supply every call for information.

The statistics for the year are as follows:

Total visits	1551
Free visits	725
Number of cases	101
Results of work:	
Recovered	25
Improved	26
Unimproved	12
To hospital	10
To special nurse	15
To Brentwood	3
Died	3
Still under care	6

Grateful acknowledgement is made to the following persons for money and articles for the nurse to distribute:

Miss Anna D. Berry, Mr. J. C. Batchelder, Mrs. Mary Lane Bickford, Mrs. W. E. Clapp, Mrs. Cushman, Miss Celia Devine, Mr. J. E. Dinckel, Jr., Mrs. E. B. Eastman, Mrs. J. L. Felt, Mrs. Flood, Mrs. A. M. French, Miss Georgina Halliburton, Miss Bertha Hatch, Mrs. Annie Hewitt, Mrs. Arthur Horton, Mrs. M. L. Johnson, Miss Anna Jose, Isadore and Emily Luce, Mrs. Morton, Mrs. L. W. Moses, Miss Mary E. Meyers, Mrs. John Parsons, Mrs. Walter Phillips, Mrs. Joseph Pierce, Mrs. M. L. Putnam, Mrs. A. E. Rand, Mrs. John Shannon, Mrs. Sheldon, Mrs. Thomas Simms, Mrs. Charles Smith, Mrs. Cora Shackpole, Miss Josephine Staples, Mrs. John Sweetser, Miss Swenson, Mrs. L. H. Thayer, Mrs. Fred Tucker, Miss Bessie Varrell, Mrs. Gertrude Whinn, Mrs. Burpee Wood, three ladies at the Rockingham, several parcels without a name, also from "a friend" the Domestic Missionary Society, the Howard Benevolent Society, the King's Daughters of the Baptist, and of the North churches, the Red Men.

Money for special cases has been received from Miss Anna Denny, a friend, Rev. Alfred Gooding, Mr. C. C. Hall, Mrs. Emile Richter, Rev. L. W. Thayer, Rev. Father Walsh, Miss Susan J. Wentworth.

Christmas gifts of money were given by Mr. D. F. Brothwick, Mrs. M. C. Foye, Miss Bessie Mooney, Mrs. Emile Richter, Miss Dorothy Thayer.

Christmas gifts of candy, toys, clothing, etc., from Hope Akerman, Miss Annie D. Berry, Louise Blaisdell, Carter & Benfield, Florence Garfield, Mrs. Alfred Gooding, Miss Carrie Hayes, Margaret, Florence and Caroline Mainston, Miss Bessie Mooney, H. P. Payne, Mr. John Pearson, Mr. A. E. Rand, Mrs. W. G. Shackford, Thomas Wilson.

For all the interest manifested by gifts or by sympathy that has been shown in many ways, the board of managers renders hearty thanks, and trusts that the fortune may increase the usefulness of an organization in this beloved city of our birth or adoption.

Tiny Children Were the Victims

Of Criminal Assaults at Hampstead

Fourth of July Services at the Local Churches

Shoe Factory to Have Holidays for Three Days

Exeter, July 3.—The Gale Brothers' shoe factory was closed Friday night and will not reopen till Tuesday morning, this giving the employees a three days' vacation.

The Exeter Athletic Association baseball team plays the Kingston team at that town this afternoon. The local team will line up as follows: Eldredge, c; Donsell, p; Cooper, 1b; Cameron, 2b; Troy, 3b; Barnes, ss; Byron, lf; Fuller, cf; McDonald, rf.

George L. Sherman of Hampstead was arraigned in police court Friday afternoon before Judge H. A. Shute, charged with felonious assault on two children of tender years—aged 11 and 13 years, respectively. He was taken to this town last night and lodged in jail, where he spent the night. Counselor Charles H. Batchelder of Portsmouth appeared for the state and Sherman pleaded guilty. He was held without bail for the grand jury, which sits at Portsmouth on October.

Special Fourth of July services will be held at the Methodist church Sunday morning and evening. The subject in the morning will be "How Can We Improve Our Town," and in the evening "A Talk to Firemen." At the Episcopal church the officers of the town, military organizations and historical societies are invited to attend in a body, or individually, divine services, which will be held at 7.30 o'clock Sunday evening, conducted by the pastor, the Rev. Victor M. Houghton. The secular part of the day will be observed in the usual manner, although efforts are being made to have the day observed in a more quiet manner, and orders have been issued by the chief of police, C. G. Gooch, that the firing of firearms of any kind is to be prohibited till after 1 o'clock on the morning of the 6th.

Telegraph Operator Hirst is filling the vacancy at the Boston and Maine station in the absence of the regular operator, John Adams, who has not yet returned from a wedding tour.

The Stratham Athletic club baseball team plays the Rye Beach team at Hampton Beach this afternoon.

William Manis and George A. Tilton play with the Dover and Somersworth baseball teams at Dover today. The former is a member of the Somersworth team, and the latter of Dover.

Michael Hart, a younger brother of "Eddie" Hart, the Princeton athlete, is practicing for some of the amateur athletic meets this season, in which he intends to enter for the shot put. He has been making some creditable puts under the coaching of his brother.

Sagamore lodge, I. O. O. F., will install their officers, which were elected recently at the meeting of July 12.

A feature of the coming encampment of Company 3, Coast artillery at New Castle, will be a field day, in which it intends to make a creditable showing. The company includes several good athletes, and also some excellent baseball material. It will leave here for camp on July 12.

Albion Burbank and family left for their summer home at Randolph, on Friday.

Members of the Grand Army of the Republic and Sons of Veterans are requested to meet at the Grand Army hall Sunday at 7 p. m. for divine services at the Episcopal church.

Sergio Lopes of Boston is visiting his daughter, Mrs. William R. Bucknam at the Squamscott house.

Misses Florence and Beatrice Baker have gone to Lake Morey in Vermont, where they will spend the summer at a girl's camp.

Mrs. C. Maurice Shaw and daughter Louisa of New York, are spending the summer as guests of Mrs. M. E. Collins of Main street.

Miss Mary L. Sanborn of this town is in the list of the successful ones who passed the state teachers' examination at Concord last week.

The members of the Land-a-Hand club are grateful to the friends who made their recent sale so successful that \$20 was sent to Boston for the outing fund. The secretary of the society in acknowledging the money, wrote: "It is hard for us who can run to the country almost any time to realize what it means to men and women who dare not spend even a nickel for a car ride. It is really new life to them."

Samuel K. Bell, elder son of the late Hon. John J. Bell, graduated from Dartmouth Wednesday and will next fall enter the Harvard Law school.

Mrs. George M. Kent, Hervey, Kent

and Miss Margaret Kent witnessed his graduation.

Mr. and Mrs. C. G. Small, who had been guests at the Squamscott since fall, have gone to Kennebunk, Me., for the summer. They will return to Exeter in the fall when they will take quarters with Mr. and Mrs. Walter S. Carls.

The Fourth of July this year falling on Sunday, there will be divine service at Christ church at 7.30 p. m. The officers of the town, the military organizations and the historical societies are invited to attend in a body or individually, as it seems to them best; likewise all citizens who are so minded are invited.

Hon. George B. Cortelyou, of New York, will next fall place another son in the Academy.

The marriage of Mr. Laurence M. Crossie and Miss Helen Mason is appointed for next Monday.

Mr. William H. Calkin, of Oklahoma, is about to pay a vacation visit to his parents, Mr. and Mrs. Charles H. Calkin.

Mr. Albion Burbank and family have gone to their summer home at Randolph.

The exterior of the First church has received minor repairs and is about to be repainted.

Mr. Arthur P. Hertell and family will spend the summer at Newbury near Lake Sunapee.

Mrs. Henry W. Anderson and children are guests at the Adams House, Nahant Point.

NOTICE

All persons are forbidden using fireworks or firearms of any description, until twelve o'clock Sunday night, July 4, and no guns or pistols will be permitted to be fired off on Market square to Bow street, from Market square as far as State and Vaughan street. HAPPY WOMEN

Plenty of Them in Portsmouth, and Good Reason For It.

Wouldn't any woman be happy, after years of suffering, days of misery, nights of unrest, the distress of urinary trouble, she finds relief and cure? No reason why any Portsmouth reader

Should suffer in the face of evidence like this:

Mrs. C. H. Muchmore 34 Maplewood Ave., Portsmouth, N. H., says: "I do not believe I would be alive today had not Doan's Kidney Pills come to my attention when they did. I had kidney trouble and Bright's disease and suffered two or three years from a soreness and stiffness in the region of my kidneys. I often had such acute pains that I was obliged to stay in bed. The doctors gave me all kinds of medicine but I did not receive any real benefit until I procured Doan's Kidney Pills at Philbrick's drug store. I am glad to say that this remedy brought me prompt relief and eventually cured me of my trouble. Several years have passed since that time, but I still have a good opinion of Doan's Kidney Pills. I have told many people what this remedy did for me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co. Buffalo, N. Y. sole agents for the United States.

BITS OF SPORTING NEWS

The Dover and Somersworth teams will meet at Central Park this afternoon and it looks like a good game. Finn of Anselm will be the pitcher for the Dover team and Dwal of Bowditch for Somersworth. The last time he pitched they defeated Dover 5 to 0.

Alex Ross who won the Massachusetts open golf championship on Thursday at Woodland is well known among the golfers here. He was at the York Country Club the first two years it was open.

The only sporting even on the river scheduled for the fifth of July will be the open motor boat race of the Kittery Yacht Club. It is understood that there will be a number of the fast boats from this side of the river entered and the question of who has got the fastest boat is liable to be settled.

The lineup of the Ionas will be as follows: unless Manager Dow decided to make some changes today. Leary pitcher Jim Goodrich catcher, Pat Powers first base, Henri Gragen second base, Ned Paul third base, Young McPheters short stop, Tommy Lynsky left field, Seth Hanson center and George Woods right field.

The long talked of baseball game between the P. A. C. and the Ionas Club for a tie bet of \$50 and the big played at the Plains this afternoon, and it is expected that it will be a game worth watching. Both teams have been getting in considerable practice and without doubt will give a good account of themselves.

Marshall Thomas Entwistle will start the marathon runners off at Monday noon when they line up for long race to Rands Grove at Jenness Beach where the finish line will be at the Catholic Union picnic. If it is a hot day there will be many of the runners drop by the wayside but if there will be weather like yesterday a good bunch ought to finish.

The line up of the Elks baseball team would indicate that that team would give the P. A. C. good battle on Monday afternoon.

The lineup will include Frank Leary and Jim Goodrich as battery, Jere Lyons at first, Henri Gragen at second, Seth Hanson who will captain the team at third, Huntton at short, Dorsey left first Philbrook center and Miskell right field.

Manager and Captain Sperry Locke of the P. A. C. had not thoroughly decided on his team last night but the probable lineup will be the Jewell boys battery, Fredrick first base, Bob Rowe second base, Pete Hatch short stop, Sperry Locke third base, Billy Woods left field, Frank Newick center and Holmes right field. Jerry Lyons will umpire the game and there will be a band of rooters from each club.

The members of the Franklin Pierce Veteran Firemen's Association are much pleased with the preliminary test of their new handhul the Eureka. They have tried it out several times with a small crew and there is every indication that as soon as the pumps are limbered up and with a full crew there will be something doing. The members are already figuring what they will do with the money they will get for prizes this season.

MUSIC HALL

Special Matinee Today

There will be a special matinee at 2.30 at Music Hall today. Aurelium continues to please the audience. Friday night the performer introduced an Italian Song in the act and it was well received. Today is the last chance to see this great act. Leo Ormond receives encore at every performance on his song "A Girl From Yankee Doodle Town" and the great ballad hit "Longing."

The feature picture today is Edison's best production "The Road to Love." The other pictures are the best of the latest dramatic and comedy subjects. Two new reels again today.

The travel on the railroad is expected to be the heaviest for years today. In addition to the heavy travel to the summer resorts there will be the week end travel and this in view of the fact that there will be two days vacation coming will be especially heavy.

NEWBERRY NOVELTIES DISCARDED

Washington, July 3.—The Newberry reforms, especially in their application to navy yards, are rapidly going by the board.

Secretary Meyer has reestablished the independence of the bureau of steam engineering and all signs indicate that he is about to cut the cords which now bind the bureau of yards and docks to the bureau of construction and make civil engineering subordinate to the constructors.

It seems that about the only feature of the much talked about Newberry reforms that is to be retained by the present administration is that affecting the consolidation of working plants.

Although Secretary Meyer had made no announcement of his intention, it is pretty well understood in the department that he purposes to restore the old order of things, at least so far as to reestablishing the identity and independence of the various bureaus. He is advised by a confidential board, the operations of which are somewhat mysterious and have given rise to great apprehension among the staff departments which were in the ascendant under the Newberry administration.

Under orders last week by Secretary Meyer the increased powers conferred upon the constructors by Mr. Newberry have been materially reduced. The constructor was made practically superintendent of the yard by Mr. Newberry. Line officers serving as engineers, as ordnance experts and in other capacities were placed under the jurisdiction of the constructor and were to serve merely as inspectors. Civil engineers were placed in the same relative position.

Secretary Meyer has changed this so that officers of the steam engineering bureau will have direct charge of the work under this bureau. The constructor or yard superintendent will furnish the number of men required by the engineer officer, and beyond that will have no authority over him or his work. This amounts practically to restoring the old order of things, so far as they relate to the bureau of steam engineering.

According to a rumor about the navy department, the bureau of yards and docks and the civil engineers will be rehabilitated in the same way.

If Mr. Newberry had remained at the head of the navy there was little doubt that the corps of civil engineers would have been abolished. This corps was in great disfavor with the former secretary of the navy for some reason. He openly declared on more than one occasion that civil engineers were a superfluous feature in the navy and could be dispensed with without the slightest inconvenience to the service. Mr. Newberry gave to the constructors all the active functions of the civil engineers, and provided for the latter the vague duty of "inspection." It turned out that the inspection was to be made after work, formerly superintended by civil engineers, had been completed under the direction of the constructors. In other words, the civil engineers were to sit about doing nothing until called upon by the constructors to make a perfunctory inspection of completed work.

All signs indicate that Secretary Meyer will gradually put the bureau of yards and docks and the civil engineers back on their old footing. It is known that the confidential board, which is advising him has had this matter under consideration. The secretary seems to place much confidence in the recommendation of this board and everybody at the department known that its members are heartily in favor of destroying every one of the Newberry reforms, save perhaps the one which brought about a consolidation of power plants.

CONGREGATIONALISTS RAISE HALF MILLION

Boston, July 3.—Congregationalist leaders will remember Thursday as a day on which culminated successfully the movement to raise \$500,000, pledged to be binding on July 1, provided \$300,000 was subscribed by that time. Not only was the \$300,000 secured, but the actual figures were \$310,000 and scores of telegrams came from all over the country saying thousands more could be had if needed.

Congregationalists have six benevolent societies, three ranking among the great missionary organizations of the country. They are the American Board, which does work in foreign fields; the Home Missionary, whose name explains itself, and the American Missionary, which works among Indians, negroes and others. During the past few years these societies have fallen into debt. The Home Missionary organization was worst off until the debt of all reached the total of \$250,000.

At the beginning of this year a committee representing all of the benevolence was formed. New York men upon it included Lucien C. Warner, Charles A. Hull, James G. Cannon and Willis E. Lougee, the last named an associate of the late Dwight L. Moody for many years. Meetings were held in one hundred principal cities. It was agreed that \$500,000 must be had.

The debts of the societies being paid, the additional \$200,000 is to be divided upon an agreed ratio and used to strengthen the organizations. Congregationalists are the second of the principal religious bodies to have raised this year large sums for debt paying purposes.

GOT THE WRONG WEATHER

It Rained Here When Fair Weather Was the Thing to be Expected

The United States weather bureau doesn't know everything.

This morning's shower, which lasted the most of the time from two o'clock till half past seven, is an instance of this.

Twelve hours before it came the bureau was looking for fair weather in this part of New England at those hours.

The bureau can tell what are the weather conditions to our north, west and south; and the direction in which a storm will move and the approximate speed at which it will travel, if it does as do ninety-five per cent. of the storms. It is the freak storm in its movements which knocks out all calculations.

The small rain storm which visited us this morning was expected to pass to the eastward over Montreal, Quebec and the lower St. Lawrence river valley.

It caught the farmers with a great deal of hay in the fields. The moisture was so much needed for bad crops that there is little complaint at the damage done to hay.

Tea houses are very much in evidence about this section. There are two in this city the same number in New Castle and three at York Harbor

MISS HOPE GOODWIN

Died This Forenoon at Her Home on Islington Street

Miss Hope Goodwin died this forenoon at her home on Islington street. She was the daughter of the late Ex-Governor Ichabod Goodwin of New Hampshire, and lived all her long life in this her native city. She was of a quiet, retiring disposition and was highly esteemed by all her acquaintances. She attended the Unitarian church.

Her only brother, Frank Goodwin of Portsmouth, professor emeritus in Boston University law school, is the only survivor of the family. A sister was the late Mrs. William Windor of this city, and another sister was the first wife of Admiral Dewey. Miss Goodwin was the foster mother of the admiral's son.
